

KEUKA LAKE VINEYARDS

FINE ESTATE WINES

Tech Sheet

2015 Evergreen Lek Vineyard Riesling

Varietal Composition: 100% Riesling

Vineyard: Evergreen Lek; western Keuka Lake

Alcohol: 11.1%

Final pH: 3.31

Date Bottled: June 17, 2016

Total Production: 88 cases

Residual Sugar: 4 g/L

Final TA: 8.0 g/L

Harvest Data

Harvested: October 3, 2015

Brix: 21.5

pH: 3.19

TA: 6.8 g/L

Vinification

Hand harvested

Settled in tank for 24 hours

Racked, inoculated with X5

36-day fermentation at 52°F

Aged on fermentation lees for 8 months

No fining agents used

Vegan friendly

Sterile filtered at bottling

Vineyard

The Evergreen Lek Vineyard is one of our oldest Riesling sites, with just over 1 ½ acres planted in 1999. In 2015, one acre of terraces was added, expanding the vineyard down the hillside toward Keuka Lake. This site is made of soils mixed of slate and glacial deposits, bringing a unique minerality to the wines produced from this vineyard. The Evergreen Lek Vineyard tends to be our most vigorous Riesling site, so on occasion, leaf-pulling is necessary to increase air flow and sun exposure to the fruiting zone to insure no disease infects the fruit.
